

Ballard Performing Arts Boosters is one group of parents who support all four of the performing arts programs. This includes all bands, choirs, orchestras and the theatre department. We are proud to help or directors, so they can do what they do best, TEACH.

The programs have grown over the years and so have the need for volunteers. Our board is big in number since we made the decision to break down larger positions in hopes of making them more manageable for our busy parents. We need your help! Please email ballardperformingarts@gmail.com if you are interested in any of the following or to help in another way.
